## PROBLEM STATEMENT

In today's busy and expensive life we are in a great rush to make money. But at the end of the day we broke off. As we are unknowingly spending money on little and unwanted things. So, we have come over with the idea to track our earnings. **Personal Expense Tracker (PET)** aims to help everyone who are planning to know their expenses and save from it. PET is an application in which user can add expenses on daily basis and its table will get generated and at the end based on user expenses report will be generated. User can select date range to calculate his/her expenses. This system is very much useful for every individual to control their Income-expense from Day-to- Day to Yearly Basics. And to keep a watch on their expense.
